

PHILANTHROPIC BUSINESS OF THE YEAR (PRIVATE)

THE PENTA BUILDING GROUP PENTABLDGGROUP.COM

The PENTA Building Group has built some of the most iconic and recognizable buildings in Las Vegas during the past 22 years, but the company's people- and community-focused approach may be what has had the biggest impact in Southern Nevada.

PENTA has donated more than \$9 million to more than 350 charities since 2000, and they founded the PENTA CARES Foundation to further their charitable reach. With a company culture that cherishes relationships and cares about the well-being of its surrounding communities, PENTA also empowers philanthropic staff by offering numerous community volunteer opportunities throughout the year.

"Since the beginning, PENTA has considered giving back to the Las Vegas community a core value," said John Cannito, President and Chief Executive Officer, who continually stresses the importance of community action and care. "Las Vegas has a culture of generosity and charity that is unrivaled. The people of Las Vegas take pride in helping each other, and we are just proud to be a part of that."

"We formed our nonprofit foundation, PENTA CARES, a few years ago to strengthen our commitment to the Las Vegas community — to us, PENTA CARES is the accomplishment we are most proud of."
